

# FRICTION WELDING MACHINES

All World is a distributor, service provider, and installer for Izumi friction welding machines.

## IMPROVE QUALITY

- Completely defect free with no worry over blowholes
- Highly uniform results and stable joints
- Low thermal strain and high dimensional precision

## GAIN EFFICIENCY

- Easy operation
- Equipped auto-loader results in unmanned operation

## REDUCE COST

- Pre-welding processes, such as grooving and spigot making, are not required to weld dissimilar metals or non-ferrous metals together
- Possible to weld dissimilar metals or non-ferrous metals together

## GO GREEN

- Carbon dioxide emissions reduced by half
- Environmentally friendly with no generation of sparks or gases
- Low energy consumption compared to other welding machines
